CUSMA CERTIFICATION OF ORIGIN

Template containing the minimum data elements CBSA requires. Not an official form: there is no prescribed format.

1. IMPORTER, EXPORTER OR PRODUCER CERTIFICATION OF ORIGIN State whether the certifier is the importer, the exporter or the producer.	
2. CERTIFIER Name, title, address (including country), telephone number and email address.	
3. EXPORTER Name, address (including country), email and telephone, if different from the certifier. Not required if the producer is certifying and does not know the exporter. The address must be the place of export in a CUSMA party.	
4. PRODUCER Name, address (including country), email and telephone, if different from the certifier or exporter. If several, state "Various" or list them. May state "Available upon request by the importing authorities". The address must be the place of production.	
5. IMPORTER Name, address, email and telephone, if known. The address must be in a CUSMA party.	
6. DESCRIPTION AND HS TARIFF CLASSIFICATION Description of the good, and its HS classification to the six-digit level. For a single shipment, give the invoice number if known.	
7. ORIGIN CRITERION The rule of origin under which the good qualifies.	
8. BLANKET PERIOD If the certification covers multiple shipments of identical goods: the period, up to a maximum of 12 months (from / to).	
9. AUTHORISED SIGNATURE AND DATE *I certify that the goods described in this document qualify as originating and the information contained in this document is true and accurate. I assume responsibility for proving such representations and agree to maintain and present upon request or to make available during a verification visit, documentation necessary to support this certification.*	
SIGNATURE	
NAME AND TITLE	
DATE (YYYY-MM-DD)	

A template containing the minimum data elements CBSA requires (CBSA Memorandum D11-4-14, Annex 5-A of CUSMA). There is no official CUSMA form: the certification has no prescribed format. Only the importer, exporter or producer may certify origin. RRA Group does not certify origin.
